FASEB

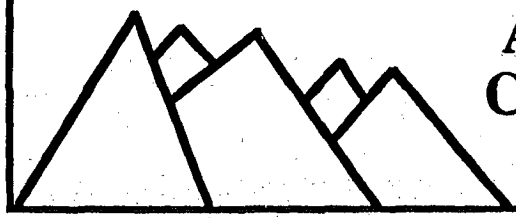
CONFERENCES

Summer Research Conference

GI Tract IV

DEVELOPMENT AND REPAIR

Cellular and Molecular Aspects



August 4-9, 1991
Copper Mountain
Colorado

Stem cells and development (renewal of the epithelium)
E. Birkenmeier, C. Potten, B. Ponder

Cell and region-specific regulation of intestinal epithelial gene development
J. Gordon, R. MacDonald, A. Tyner

Models of epithelial differentiation
A. Quaroni, E. Rodriquez-Boulan, D. Louvard, M. Rindler

Development and maintenance of polarized epithelial cell function
M. Caplan, M. Mooseker, J. Anderson, K Mostov

Endocytosis and trancytosis in mucosal immunity
M. Neutra, R. Rodewald, J. McGhee, J.P. Krahenbuhl

Extracellular modulation of GI cell differentiation
J. Jamieson, V. Quaranta, P. Ekblom, L. Reid

Cell migration and repair of the epithelium
J.L. Madara, L. Taylor, M. Sheetz, M Beckerle, M. Sobel

The neural crest and GI development
N. Le Douarin, L. Reichardt, M. Bronner-Fraser, M. Gershon

Intestinal inflammation/anaphylaxis and neural function
D. Powell, M. Perdue, J. Wood, A. North, K. Barrett, G. Castro, H. Cooke, A. Surprenant

Limited funds will be available to support expenses of trainees and young faculty members. Send inquiries to: FASEB Summer Conferences, 9650 Rockville Pike, Bethesda, MD 20814. Telephone 301-530-7093 - Fax 301-530-7014
